SKINDNA SKIN HEALTH PLAN	\$200 <small>\$100 REDEEMABLE ON PRODUCTS</small>
--------------------------	---

A 2 part consultation where a SkinDNA test is taken prior to your second visit. This allows to prescribe the most suitable skin ingredients and treatment modalities based on your DNA. Your skin therapist will perform the DNA test and it will be sent to the accredited SkinDNA lab for analysis. Within 7 days we will receive a full report and skin analysis. Your second visit we will go through the report with a customised skin health plan combining products, supplements and treatment modalities that will be specific to your needs. Skin images will also be taken and full demonstration on how to use your prescribed skincare at home.

DermaPen Skin Needling

Skin has a self-rejuvenating function that is capable of significantly reducing blemishes caused by acne, trauma, pigmentation and a range of other ailments. Micro-Needling activates this process by causing tiny punctures across the treated area. As skin heals, it produces collagen which forms a new layer of fresh tissue, creating a more youthful appearance on the surface and fighting antibodies beneath.

Treat your face & body with pinpoint precision to promote rapid lifting, firming, and toning of facial features and contours. Visible results in just one session!
